YEARS IN SUPPORT	CSAT SUSTAINED	FIRST RESPONSE	CASES / DAY	INCIDENTS & RCAS	ENTERPRISE ACCOUNTS

PROFESSIONAL SUMMARY

Technical Support Specialist with **4+ years** of L1/L2 support for enterprise SaaS and CPQ platforms. Strong in troubleshooting, **log analysis, root-cause analysis (RCA)** and incident management across cloud environments. Sustains **92% CSAT** and a **5-minute first-response SLA** across **20+ cases per day**, with **30+ incidents documented** for **15+ enterprise accounts** in the US, Canada and LATAM.

WORK EXPERIENCE

Technical Support Specialist (Tier 1 & Tier 2)

Feb 2025 – Present

Revalize / Configure One

Enterprise CPQ SaaS platform for complex product configuration · Remote

- Resolve 20+ daily L1/L2 cases on an enterprise CPQ SaaS platform, sustaining 92% CSAT and a 5-minute first-response SLA.
- Investigate and document 30+ incidents and RCAs, tracing root causes through system logs, error telemetry and cloud diagnostics.
- Support 15+ enterprise accounts (Avianca / Lifemiles, Altabix, Escapadas, Sicas Lite, Invetso) across the US, Canada and LATAM.
- Partner with Engineering on permanent fixes for authentication (SSO / OIDC), configuration and integration issues.

Technical Support & Project Coordination (Junior PM)

Mar 2024 – Nov 2024

BluePixel

Technical Support / Client Solutions · Remote

- Managed project timelines, client communication and task prioritization for high-profile accounts including Lifemiles–Avianca and Altabix.
- Supported technical teams with issue tracking, follow-up and resolution workflows, bridging clients and development teams.

Bilingual Customer & Technical Support Specialist

Mar 2021 – Nov 2023

Teleperformance LATAM

Uber Eats & VRBO · Remote, US & Canada markets

- Handled high-volume technical and customer support across chat, phone and email, resolving 20+ daily cases for Uber Eats and VRBO.
- Troubleshot account access, billing, payment-gateway failures, refunds and account restrictions, plus password resets and security cases.

SELECTED INCIDENT INVESTIGATIONS (RCA)

CRITICAL **Production sign-in outage** — Infrastructure · TLS

Root cause: an expired application-server TLS certificate. Led the fix and restored access in ~31 hours.

HIGH **Quote-creation failure** — Integration · Data

Isolated a missing account reference blocking quote creation and restored the affected records.

HIGH **SSO authentication upgrade** — Identity · SSO

A Keycloak 26 upgrade broke first login; corrected OIDC scopes and IdP mappers and documented the fix.

CORE SKILLS

- **Support Engineering**
  - L1 / L2 Support · Incident Management · Escalation Handling · Root Cause (RCA) · SLA & KPI Management · Customer Success
- **Debugging & Observability**
  - Log Analysis · Error Telemetry · API / SSO (OIDC) · Issue Reproduction · Postman
- **Cloud & Systems**
  - Cloud Environments · Windows / Linux · Networking · SSL / TLS · SQL & Databases
- **Tools & Platforms**
  - Salesforce · Jira · Zendesk · Genesys Cloud · Citrix · MS Teams · Google Workspace
- **Development & AI**
  - JavaScript · React · Node.js · REST APIs · HTML / CSS · Git · AI-assisted triage
